## ABOUT THE ASSOCIATION OF PHARMACY PROFESSIONALS (APP)

APP is a unique organization comprised of dedicated professionals willing to serve pharmacy profession in dynamic ways and is continuously gaining popularity among pharmacy students and teachers in India as well as abroad. It is registered under MP Society Registration Act Govt. of India and runs a peer reviewed international pharmaceutical journal 'Bulletin of Pharmaceutical Research - Bull. Pharm. Res.' and a biannual newsmagazine 'APP Scientific Updates'. The main motives of APP are to provide a platform to the professionals for discussing diverse aspects related to pharmacy, to promote the cause of pharmaceutical research and education, to organize annual conventions/symposiums/workshops/guest lectures/conferences and other activities for upgradation of pharmacy personnel. Kindly visit the web-site [www.appconnect.in](http://www.appconnect.in) for more details about the association.

### OBJECTIVE:

- The Pharmaceutical sciences combine a broad range of scientific disciplines that are critical to the discovery and development of new drugs and therapies. Current issues and recent innovation in pharmaceutical sciences emphasize on drug discovery, design and formulation of new drug molecules in more efficient and patient friendly dosage forms such as tablets, injections or patches; that are able to deliver the drug to the site of action in a patient.
- The ultimate purpose of these innovative efforts aims to achieve the right and controlled drug concentration at the right time in order to achieve desired goals of therapy. Besides, a couple of important concerns are about drug action that examines how the drug itself actually works in a living system as well as drug analysis that involves separating, identifying, and quantifying the components of a sample.
- Regulatory affairs promotes communication, understanding, and cooperation between scientists from industry and academia and the regulatory authorities worldwide who govern approval and Distribution, by means of developing regulatory guidelines.
- In the present conference, eminent Pharmaceutical experts from international universities (Mekelle University, Ethiopia and Jimma University, Ethiopia) will discuss about "Current issues and Innovations in Pharmaceutical research".
