## REPORT OF EVENT

**Title of the Programme:** National Webinar in Collaboration with Elsevier, USA On “Innovations And Applications of Data Analytics in Medicinal Chemistry”

**Resource Person:** Dr.Mandar Bodas, Research Consultant, Reaxys, Elsevier

**Date of event:** 07-05-2021

**Organizers:** Department of Pharmaceutical and Phytochemistry

**Mode of conduct:** On-line

**No of registrations:** 224

### **Objectives:**

- To determine the usage of Data analytics Software for Pharmaceutical Applications
- To determine structure of novel compounds using Reaxys software

**You tube link:** <https://www.youtube.com/watch?v=-km8pOY9mzQ>

### **Outcome of the programme:**

**Dr. Bodas** presented about understanding of the data analytical applications used in Medicinal Chemistry. He has explained about Data-driven medicinal chemistry (DDMC) and the application of computational (informatics) methods for data integration, representation, analysis and knowledge extraction to enable decision making in medicinal chemistry on the basis of internal and public domain data. He has also stressed upon the drawing the structure, structure–activity relationships (SARs), acid-base and physicochemical properties, and absorption, distribution, metabolism, excretion, and toxicity (ADMET) profiles.
